

Photo documentation of the Stakeholders-Workshop about Gender Equality in Research and Academia

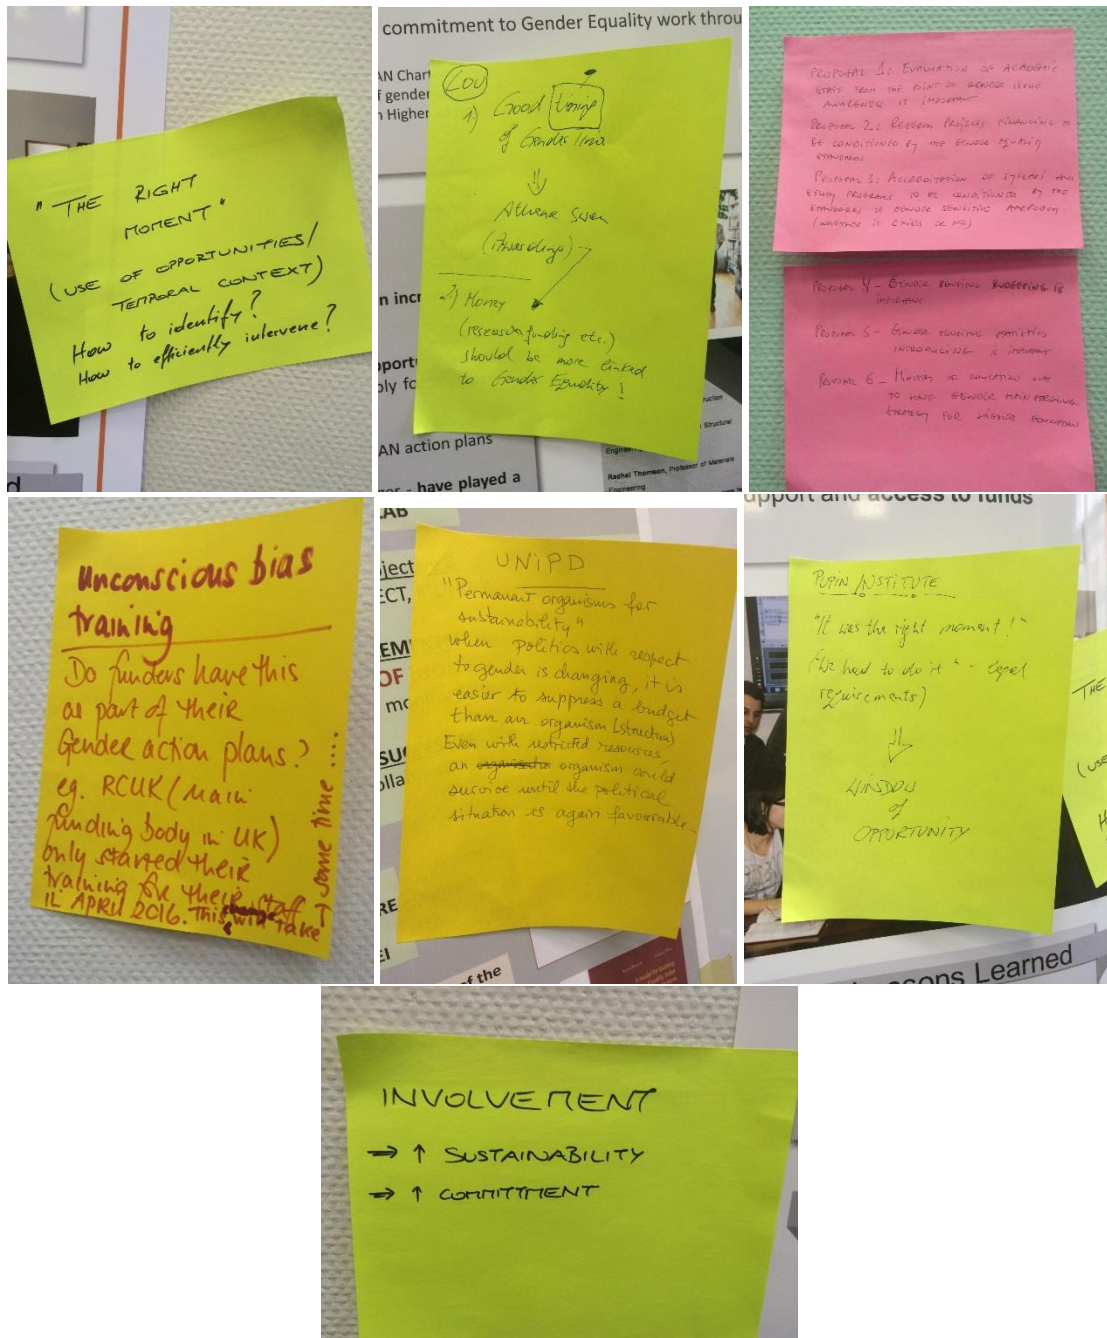

(Wednesday, September 28th 2016 in Paris)

Sharing Stories of Good Practices and Hurdles in Research and Academia
(including poster presentations about the implementation of gender equality plans during GenderTime):

World Cafè Discussions: Sharing Innovative Solutions and Ideas for more Gender Equality in Research and Academia

we national languages AND national existing toolboxes

CONTEXTUAL BACKGROUND

GOOD OF PRACTICES

STRATEGY IN PDF

How ~~tools~~ to evaluate efficacy of interventions?
eg. development programmes.
Evidencing impact - sharing news of good practice/news!

ACCESSABILITY FOR 'NEWCOMERS'

METATOOLBOX

Contextual information at start of case studies.
Think about users including new.

Need to map structure. currently imbalanced

SCALE OF CHANGE

At the end it became very complicated system. Supposed to change point of view - put more attention to scientific activity, its evaluation, focus on change etc. & measure how the results/achievements are evaluated and how the scientists benefit from it. Then how - to make reduce the gap in this for both genders.

GenderTime → EIGE?

3. A Gender Equality Index for academic institutions (chaired by Dr Lorenza Perini)

Index should be a part of the Toolbox

- INDEX should be the most important tool
- Indicators should be included into INDEX comprehensively (fact ^{test methods fed up on dissemi- nate}
 - perceptions
 - value statements

Questions should be cautiously selected and standardized, and then disseminated to academia across the EU

Questionnaire - its quality is crucial
Aim of the survey to be well clarified

Training

- Sustainability of the GEI - motivation of people collecting data
- To identify the area where action is needed (GE)
